

ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE REGULATORY CONTACT RECORD

Date/Time: February 1, 2001/ 10:00 a.m.

Site Contact(s): Ted A. Hopkins
Phone: 303-966-7652

Regulatory Contact: James Hindman
Phone: 303-692-3345

Agency: CDPHE

Purpose of Contact: Notification of Partial Closure of Unit 94.007 (Tank 360) and 94.008 (Tank 370) in Room 134, Building 776 [SET 52]

Discussion

Section 4.5.2, Closure Documentation of the Building 776/777 Closure Project Decommissioning Operations Plan (DOP), states that "portions of a RCRA-regulated unit may be removed prior to submittal of the required unit-specific closure information upon engagement of the consultative process and concurrence of the LRA." In accordance with this section, I contacted James Hindman (CDPHE) to request that the State approve partial closure of Unit 94.007 (Tank 360) and 94.008 (Tank 370) in Room 134, Building 776 prior to submittal of a minor modification to the DOP for closure of these units. These tanks (Tanks 360 and 370) have been drained and meet the definition of physically empty under the Mixed Residue Consent Order. This request covers partial closure of the container storage area's metal berms in Room 134 by:

- First conducting generator debris treatment of painted angle iron berms using chemical extraction. Trisodium phosphate will be used to wash the surface of the angle iron to remove any residual contaminants. Evaluation of this debris treatment will be conducted by B776 Environmental Compliance staff using the Clean Surface Debris Standard.
- After debris treatment, RCRA partial closure will be conducted as specified in the B776/777 DOP under Closure by Removal. If the painted angle iron berms do not meet clean surface debris standards after treatment, the angle iron will be managed as Low Level Mixed Waste. Angle iron meeting the Clean Surface Debris Standard will be managed as Low Level Waste.

Mr. Hindman evaluated this request and in accordance with Section 4.5.2 approved the treatment and removal of the metal berms as described above.
